

Name: Logan Clelland

Program: Bachelor of Business Administration

Running for: Vice president External

Who am I?

I am a third year Bachelor of Business Administration student. I am a passionate, politically minded individual, who is willing to stand firm against injustices. I have worked as your Clubs and Associations Commissioner for the past year at the SUS, and I now want to help you advocate for getting what you need to make your student experience as good as it can be.

Why me?

I have spent the past 3 years learning the ins and outs of the Student Union Society, and the University itself. My year in residence has really shown me what life is like for international students, residence students, and I am now living the life of a commuter. This has given me unique insight into the living situations, and many of the issues that we face attending and trying to connect with others at UFV.

What does the Vice President External Do?

The Vice President External is the representative and liaison between the Student Union Society and the municipal, provincial, and federal governments, and within UFV itself. I would be responsible for collaborating with other partners in advocacy organizations and at UFV. Essentially, the Vice President External is the one who represents the student's opinions, and raises their issues to not only the university, but also works to speak for the students on a national level.

What Will I do?

There are several things that I want to accomplish during my time as VP External, some of them

1. Work to better arrange the bus schedules
2. Advocate for tuition fee decreases, for both international and domestic students

3. Create more opportunities for student housing, on and off campus
4. Establish “student town hall’s”, to truly keep in touch with the students at UFV
5. Get the UFV Health Care Center running!
6. Research best practices of other SUS’ and look at improving our own policies

We have a lot to advocate for, and I want to listen. Town halls, and meetings with student groups will help me learn what you care about, and I will be dedicated to making some of these important things happen!

Parting Thoughts:

These are but a few examples of what I wish to accomplish over the next year. But more than ever, the Student Union Society operates for you, and I hope to be there to advocate for a better campus experience.

Allow me to be your megaphone with university and political leaders!

Don’t forget to vote between April 9th, and April 12th!
