Candidate Statement

Faculty of Sciences Representative

UFV science students! My name's Reece and I'm re-running to be your Faculty of Science Representative.

Since the beginning of my attendance at UFV, it's been a goal of mine to be a force for positive change in the community of UFV. I'd like to move more towards this goal as your representative; To know and voice your concerns to your student union.

As your representative, my mission is to support you the best I can with the responsibilities allotted to me. Specifically, my goals are to:

- **Better support clubs and associations**
 - I want to make sure that clubs and associations have all the resources and support they need to run efficiently and effectively. I believe clubs and associations on campus are essential to the community and culture of a university and I will advocate to make sure they can be their best.
- **Work towards better communication between SUS and you**
 - As a student, it's a challenge to find time and see what's happening with your student union, and what opportunities are available to you through them. It's my goal to make this as easy for you as possible.
- **Promote Community within UFV through SUS**
 - I believe that everyone wants community. You deserve the opportunity to get to know your fellow students as friends before they become your colleagues in the future. I will advocate for community at UFV through SUS to have more events and student engagement initiatives
- **Be your voice**
 - I've listed the goals above because I believe they would benefit the student body as a whole, and that they'd benefit you. By far though, my greatest goal is to hear and know what you want out of your student union and vouch for you as your representative.

Thank you for taking the time to read my candidate statement. With your vote between Apr. 5th – Apr.9th, I can be your voice to your student union!
