# Who Am I?

**Hello everyone! My name is Sharnpreet, however, I go by the nickname of Sunny. I am currently finishing my third year of my Bachelor of Business Administration Program, with a major in Accounting. Many of you know me from classes we've shared together or simply from meeting around the university while studying or participating in an event. If you don't know who I am, I encourage you to either email me, or come up to me in person to chat!**

**I was previously in the newly created seat of VPS among the Student Union Society and very much came to understand how the society works and what the opinions of the people were for the society. Upon learning all that I could, I took a year away from sitting on a seat in the society in order to best try and understand what needs to be done going forward. With a fresh group of executives looking to see change in the society and make a difference in the university for all student, I intend to ensure that our society can finally make steps towards success for our members experience in university.**

**Given my experiences thus far, and my knowledge of the society leading up to this point, I look forward to the change I can make, and hope to fulfill the expectations of any and all of you who choose to vote for me in this coming election.**

# My Platform

**Aside from the basic necessary actions that must be done by the president, including those not listed as part of the job such as ensuring that we're providing as much transparency as possible, embracing all forms of culture and tradition celebrated by our membership, trying our best to increase awareness, etc.**

**I will be making sure to make the following larger scale changes:**

- **Re-assign spending in our budget to allow more of our assets to be allocated towards our students; this would be done primarily by using these methods:**
  - **Leave CASA. We spend upwards of \$45,720 (based on the \$2.96/student fee w/ 15,446 students [2009 number]). This would also result in a decrease of travel fees in the society which are currently budgeted at \$27,163. With a combined cost of well over \$60,000 just from being in CASA, we could add much more to our budgets for the sake of developing events and new programs for our membership.**
  - **Strong review of budgets and ensure that all money in the society is accounted for when spent. As a student majoring in accounting, I intend to make sure our money is being spent properly towards what students wish to see it spent on.**
- **Give our students a proper voice. I intend to do this in various ways in order to ensure that anyone can share their opinion of what they want to see differently from our society. If its hard to find one option to give an opinion, we'll simply need to form additional inlets for that information to flow to the executives.**

# Contact Me

**Please feel free to reach out to me in order to ask me questions! I have many things I'd like to see changed; I wouldn't be able to be concise enough on paper to show them all! I would love to hear from any and all students who want to know what my platform is and all the changes I'd like to make going forward.**
