

Candidate Statement, VPS 2020, Tyler Branston

I have been a student since 2015, starting at Douglas College and now studying at UFV since 2017. I'm doing a double major in Sociology and Honours Philosophy. I started the Philosophy Association of UFV in the Summer of 2019 with the help of some other dedicated students and have been actively trying to improve the situation for Clubs and Associations since. As your VPS, I intend to make the operation and creation of Clubs and Associations as easy and as seamless as possible and give opportunities for Clubs and Associations to have the space and funding they need to operate in a manner that encourages student engagement on campus. In my years I have been around Douglas College, SFU and UBC and have seen their on campus engagement and I fully intend to bring a strong campus engagement to UFV. As a growing campus, the need to develop an on-campus culture is imperative, and I fully intend to facilitate the development of that culture.
