

April 28th, 2017

The UFV Student Union Society (SUS) and UFV Athletics and Campus Recreation are excited to announce that Chilliwack students' fitness program available through their UPASS card will now be provided through new fitness facilities and programs being developed on the UFV-Chilliwack campus. An investment in this new fitness program is comprised of outdoor fitness and athletic facilities, a work out room with weights and work out equipment, and several indoor group fitness classes. SUS and UFV plan to make these facilities and programs available to Chilliwack students in the next two weeks and will be sending UFV Chilliwack student details regarding the on-campus classes and exercise options in the coming week.

UFV students can also explore personally purchasing gym memberships at the Chilliwack Landing Leisure Centre or Cheam Leisure Centre.
