

My name is Ekanki Chawla and I am running for the position of Faculty of Science representative. I'm in my third year of pursuing a Bachelors of Science degree with a Major in Biology. I am eager to get more involved and be a contributing member of the UFV community! I want to share my enthusiasm and passion for learning and science with the rest of UFV. I am confident that my strong organization and communication skills, along with my dedicated work ethic and friendly disposition, will make me an excellent candidate to represent the science students of our university. I will strive to be approachable and always open to suggestions, questions and ideas.

Thank you,
Ekanki Chawla
