

## Vice President Internal 2017-2018

*My name is **Manbir Sandhar** and I am currently enrolled in the Bachelors of Business Administration Degree program at the University of the Fraser Valley. I will be majoring in Accounting and Finance. I now want to play an active role in the ongoing improvement of our University and a provide a better place for our future students. Therefore, I am running as the Vice President Internal (VPI) 2017-2018 for the Student Union Society at our University and would greatly appreciate your vote.*

As the VPI, I will be the Treasurer and Secretary of the Society and be responsible for ensuring long term financial sustainability. I will oversee the management of student organizations and provide all necessary support and resources for student clubs and associations.

With my authority, I will ensure greater support for clubs and associations on campus and more funding for club events. I want to assure that all available resources, financial or tangible, are being properly allocated to clubs and associations and not being restricted. Alongside, I will promote the concept of creating more clubs and association to students to insure everyone has an option based on their interests.

In my position, I will be responsible for ensuring the voice of students is being heard. I promise all students to prioritize problems they may be facing and to discuss and resolve them with the executive team and board members of the Student Union Society (SUS). The students of our University are the most important factor when making decisions as an executive team. I will include as much voice from non-Board students in all decision making processes of the society.

My experience working at a tax bank, organizational and professional skills, and excellent work ethic will help me succeed as the VPI. I will bring my passion for helping our students and improving our University for our incoming future students. I assure everyone I will make their vote count and use my authority to better our University.

I would like to thank all the students for your support. Please contact me at [manbir.sandhar@student.ufv.ca](mailto:manbir.sandhar@student.ufv.ca) to discuss any questions you may have regarding my platform.
