

## Election Report

All candidates that were nominated submitted fully completed nomination packages and were eligible to run in the election.

One candidate withdrew prior to the Campaigning Period.

4 written warnings were issued to candidates.

An incident occurred where a candidate's poster was severely defaced and the matter was investigated.

7-8 complaints were made regarding the lack of the "no vote" option. The lack of the "no vote" follows the ballot format of the Canadian Municipal, Provincial, and Federal elections, therefore I don't believe this to be a substantive complaint.

Voter turnout has increased substantially over the last few years since I have been CEO.

In 2017, voter turnout was 5.9%, in previous years' voter turnout was approximately 2-3%

In 2018 (by-election) voter turnout was 4%

In 2019- the present election, voter turnout was 8%
