General updates

1. Nimbus

Understood the backend of operating the admin app of nimbus. Interviewed 3 tutor applicants, 2 of them were successful, 1 was unsuccessful. I received contract from 1 tutor he is up and running now still waiting for the other tutor's contract. We have a marketing plan for the upcoming semesters that we are going to execute soon.

2. Goal Plan

Compiled a goal plan for my term. It contains the events, programs, etc. that I hope to contribute towards. It has specific events that I would be trying to execute if campus opens for students. If not, I would either try to have an online version of them or do some other event.

3. C&A's

Due to the current circumstances, I got requests for clubs like social justice & racial equality club, Afro-Caribbean club, etc. we are still in the process of streamlining the process of registration. I am also meeting C&A's executives one on one for introductions and to accommodate them with anything I can. Got a fund request from a club which was approved.
