# ABOUT ME:

**Hi everyone!**

My name is **Claudia Daboin** and I am in my 4th year here at UFV in the Kinesiology program. During my first 3 years here at UFV I was a member of the Varsity Women's Soccer Team, while simultaneously being involved in the school's athletic department, campus recreation and varsity games and events. In my experience, I've developed a sense of what it really means to be a Cascade and a student representing our school, and I will emit that same sense of school culture and pride among my fellow students.

**I am running for the position of SUS Vice President - Students** as I am very passionate about improving the voice that students have on campus. I will use my leadership skills along with my personable skills to create a more **integrated and immersive relationship** between the students and SUS.

# MY PLAN:

If elected as your VP-S, I will work closely with the executive team to **provide students with the encouragement and resources necessary to continue to thrive** throughout these uncertain times.

## My Focuses:

- Providing Student Support Resources along with Mental Health initiatives
- Developing opportunities for students where we can have our own safe space with peers. Promoted in the form of:
  - **Student Clubs**
  - **Student Associations**
  - **Student Organizations**
  - The planning and execution of **Social Events**

# MOVING FORWARD:

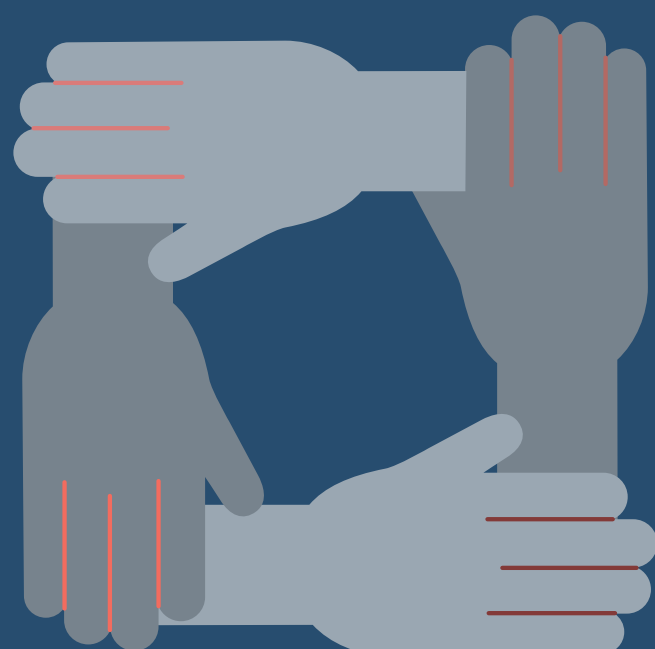

During the past 2 years, we have been facing a surplus of extraordinary, unprecedented events, and the need for students to be and feel supported has never been greater. As a student myself, I have definitely felt the stress and strain these events have caused. As we continue to bear the load of being students through floods, pandemics, and wars we must **come together** to regain the student life that we have been working tirelessly for and that we deserve. **Everyone has a right to have a voice, to be heard, to be supported and to be understood.**

# WHY ME?

If you vote for me, I will pursue an environment on campus where **students support students!** We should feel that the experience at school is not only educative, safe, and preparative for our futures, but it should also be a place where we can come together as **a community to collaborate and celebrate our student culture.**
