2021-22

College of Arts  
Representative

I am a third-year UFV student majoring in Political Science. I hope to serve as the Student Union Society (SUS) College of Arts Representative to bring forward ideas that benefit students and foster a positive atmosphere at UFV. During my UFV experience, I have developed skills and gained insight from peers that will help me voice ideas that benefit students. I am passionate about serving the communities that I engage with and appreciate this opportunity to serve UFV students who have come to study the subjects they are most passionate about. I want to ensure that every student experiences an environment characterized by comfort, accommodation, quality, and fair treatment. I commit to doing my best to achieve this if I am elected to serve as the College of Arts Representative.
