

**Candidate Statement**

# **DARIA TSYNDIA**

**Student  
Representative  
At Large**

# WHY SHOULD YOU VOTE FOR ME?

I am a second-year student of the BBA program, and I want to make sure **your** opinion is heard and taken into account. My big passion is advocating for our students and making changes happen when they are needed. Here's why you should vote for me:

## **1** Diverse background that helps me better understand different students

- I've been in STEM for 4 years, being a leader of a robotics team and doing my own scientific work developing different projects, such as an alternative fire alarm system.
- I've been actively practicing writing skills for years - I won a number of competitions, and one of my stories got published.
- I worked at UFV International as a Global Student Associate, which allowed me to connect with many awesome students here, understand their needs better and create new events and programs for them based on that.

All these experiences have made it easier for me to understand students from different programs better. **I believe this helps me connect with them and advocate for them more effectively.**

# WHY SHOULD YOU VOTE FOR ME?

## 2 Advocacy experience

- Last year, I was part of the Advocated for Change at UFV. There, I learned a lot about matters such as diversity and equity and gained awareness of the problems youth face. **I would love to apply this knowledge to the role of Representative and use it to make well-informed decisions benefiting the students.**

## 3 Experience representing our university

- This year, I am representing UFV on the Healthy Minds | Healthy Campuses Leadership Committee. In HM | HC, we are promoting mental health and healthier relationships with alcohol and other psychoactive substances at post-secondary institutions.

I use my position as **an opportunity to raise awareness about UFV's students' needs and help develop and distribute resources that can help them.**

I always try to connect with other students and learn more about their passions and struggles, support them and guide them toward useful resources. I take every opportunity to engage with the community, advocate for my fellow students and make a change.

That is why I am running for the Board of Directors:

**TO KEEP MAKING  
A DIFFERENCE  
FOR ALL OF US**
