

# JASLEEN KAUR BRAR

Faculty of Health Sciences Representative

## Why should you vote for me?

I am re-running for Faculty of Health Sciences Representative to continue raising mental health awareness and providing accessibility to student support services. In particular, my goal is to further develop mental health initiatives for the student body. As a current board member, I am aware of the responsibilities and duties and have the skills to ensure decisions are made with student consultation.

## About Me

I am a second-year student in the Bachelor of Sciences in Nursing program and the current Health Sciences representative on the Board of Directors. In my spare time, I am an active volunteer with the City of Abbotsford, Holmberg House and Sikh Sewa International. I am also a part-time instructor at the Abbotsford Karate Academy.
